Official Memorandum dated 1st July 1954.

No. S. R. 2725 — S. P. C. 8-54-2. GOVERNMENT OF INDIA.

MINISTRY OF WORKS, HOUSING AND SUPPLY

New Delhi, dated 2nd April 1954

Subjects :—Payment of contractors' bills for supplies made against contracts placed by the Director General of Supplies and Disposals.

No. Pur- 21 (25) Under Clause 15 (*ii*) (a) of the General Conditions of Contract, 90 per cent of the price of each consignment is payable to a contractor on proof of despatch of stores to the consignee from a railway station or a port in India after inspection and acceptance by the Inspector. The balance 10 per cent is payable on receipt of the consignment in good condition by the consignee, and the consignee's receipt has to be submitted with the contractor's bill.

2 There are widespread complaints from firms that consignees do not return the receipt certificates duly completed to the contractors within a reasonable time which entails consequential delay in payment of the balance 10 per cent bills. Consignees must realise that it is as much their duty as it is of the Purchase or Accounts Organization to ensure that the contractors are paid their dues without any delay. Such delays must inevitably react on the prices which have to be paid for stores purchased. With a view, therefore, to avoiding such delay in payments, it has been decided in consultation with the Ministry of Finance and the Comptroller and Auditor General of India, that the procedure in clause (i) below will be observed with immediate effect and that in clauses (ii) and (iii) with effect from 1st June, 1954.

(i) The consignees should, as quickly as practicable, furnish to the contractors their receipt of having received the stores in good condition. The consignees must, under all circumstances, furnish such receipts within 75 days of the despatch of stores by the contractor. Where they are unable to do so, they should, before the expiry of this period, inform the Purchase Officer of the fact with reasons therefor. This should not, however, be understood as extending the time allowed to them for rejection of stores found not to be in accordance with the terms of the contract.

(ii) Where a consignee fails to furnish the contractor with the receipt certificate duly signed within 75 days of the date of despatch of the stores, and where the contractor brings this to the notice of the Director General of Supplies and Disposals, New Delhi, the Director General of Supplies and Disposals will then, if not satisfied with the reasons, if any, advanced by the consignee, issue a registered letter acknowledgment due, to the authority next higher to the consignee, intimating that the consignee has failed to return the receipt certificate within the period stipulated and calling upon such officer to arrange the issue of the certificate within a further period of 15 days, from the date of receipt of the letter. If no satisfactory reply is received from that authority within a period of 15 days from the date of receipt of the registered letter the Director General of Supplies and Disposals may at his discretion authorise payment of the balance 10 per cent bill, after obtaining an indemnity bond from the contractor, which will be kept by him in his safe custody after scrutiny. In the event of such payment being ordered, the consignee will have to take full responsibility for all the consequences that follow. A copy of such order shall be endorsed to the consignee. Should any replacement of stores by or any recovery from

the contractor be necessary, it will, thereafter, be for the consignee to take the initiative and to get the terms of the indemnity bond enforced through the Director General of Supplies and Disposals.

(iii) The DAG (I & S) concerned on making payment under the special sanction issued by the Director General of Supplies and Disposals as above, shall intimate the fact to the Accounts / Audit Officer of the consignee and raise a debit against the consignee. It will be the duty of the consignee to settle the matter with his Accounts / Audit Officer either by sending the receipt certificate or arranging through the Director General of Supplies and Disposals for necessary recovery, replacement, etc. In the event of his failure to do so, Audit may find itself compelled to mention the matter in the Audit Report. The Comptroller and Auditor General is arranging to issue suitable instructions to Audit Officers separately to enable them to accept the debit and keep it under objection till it can be cleared on the consignee taking action as above.

(iv) Sanctioning payment of firms' 10 per cent bills under circumstances stated above will be entirely at the discretion of the Director General of Supplies and Disposals. No general commitment of the nature will be given to the contractors and such sanctions will only be given where the Director General of Supplies and Diposals is satisfied that the consignee has failed adequately to comply with the provision of clause (i) above.

3 It is understood that at present there is a large number of cases in which the consignees' receipt certificates have been delayed beyond 75 days. In those cases where such certificatos are on the date of receipt of these instructions, still outstanding, the consignee should immediately arrange to expedite their issue or to intimate to the contractor and the Purchase Officer of the reasons for the delay. They should ensure that this backlog of receipt certificates (is cleared by 31st May 1954 at the latest unless there are valid difficulties against the issue of the receipt tcertificate) in any particular case, in which case the contractor and the Purchase Officer should be informed of the same.

4 These instructions do not confirm any right on the contractor to claim balance payment of 10 per cent as of right in the absence of a receipt from the consignee showing acceptance of the contracted stores in good condition, nor absolve him from his obligations under the contract. Should any compensation or replacement become due in accordance with the terms of the contract, he shall remain liable therefor.

5 These instructions are liable to review and modification if necessary in the light of experience in the actual working thereof and should for the present be treated as experimental. The Director General of Supplies and Disposals are being asked to submit a report through the A.G.F.R. & S. after they have been in force for six months unless any serious difficulties arise earlier in their working.

T. C. PURI,
Joint Secretary to
Government of India.

In the said Regulations, the following shall be added as Article 214B under the heading "Special Disability Leave", namely :—

"214B. SPECIAL DISABILITY LEAVE.

Section I.

(1) Subject to the conditions hereinafter specified, Government may grant special disability leave to a Government servant who is disabled by injury intentionally inflicted or caused in, or in the consequence of, the due performance of his official duties or in consequence of his official position.

(2) Such leave shall not be granted unless the disability manifests itself within three months of the occurrence to which it is attributed, and the person disabled acted with due promptitude in bringing it to notice. But the Government, if they are satisfied as to the cause of the disability, may permit leave to be granted in cases where the disability manifested itself more than three months after the occurrence of its cause.

(3) The period of leave granted shall be such as is certified by a Medical Board to be necessary. It shall not be extended except on the certificate of a Medical Board, and shall in no case exceed 24 months.

(4) Such leave may be combined with leave of any other kind.

(5) Such leave may be granted more than once if the disability is aggravated or reproduced in similar circumstances at a later date, but not more than twenty-four months of such leave shall be granted in consequence of any one disability.

(6) Special disability leave will count as duty in calculating service for pension but it will not count as service for leave. It will not be regarded as interrupting service for leave under the ordinary rules, nor as diminishing the amount of such leave at the Government servants' credit nor as part of the maximum leave admissible to him, except that leave on average salary taken under clause 7 (b) will be reckoned as furlough on half average salary against the total amount of furlough prescribed in Article 203 and as furlough on average salary against the total period of such furlough prescribed in Article 207 (i).

(7) Leave allowances during such leave shall, subject to the maxima prescribed in Article 209, be equal :—

(a) for the first three months of any period of such leave, including a period of such leave granted under clause (5) of this Article to average salary ; and

(b) for the remaining period of any such leave to half average salary, or at the Government servants' option, for a period not exceeding three months furlough on average salary either by itself or in combination with privilege leave which would otherwise be admissible to him to average salary.

(8) In the case of a person to whom the Workmen's Compensation Act applies, the amount of leave allowance payable under this Article shall be reduced by the amount of compensation payable under that Act.

Section II.

Government may extend the application of the provisions of Section I to a Government servant who is disabled by injury accidentally incurred in or in consequence of the due performance of his official duties or in consequence of his official position or by illness incurred in the performance of any particular duty which has the effect of increasing his liability to illness or injury beyond the ordinary risk attaching to the Civil post which he holds. The grant of this concession is subject to the further conditions :—

(a) that the disability, if due to disease, must be certified by a Medical Board to be directly due to the performance of the particular duty, and

(b) that if the Government servant has contracted such disability during service otherwise than with a Military force, it must be in the opinion of Government so exceptional in character or in the circumstances of its occurrence as to justify such unusual treatment as the grant of this form of leave; and

(c) that the period of absence recommended by the Medical Board may be covered in part by leave under this rule and in part by other leave and that the amount of special disability leave granted on average pay may be less than three months."

FINANCIAL SECRETARIAT

Notification dated 19th July 1954.

OFFICIAL MEMORANDUM.

Sub.—Surrender of Savings in the Budget grants of each year.

No. Fl (B). 5328-428—Bud. 15-54-1. It has come to the notice of Government that surrender of savings in Budget grants in each year is *not* reported well in time for taking necessary action in utilising savings for additional demands elsewhere with the concurrence of the Legislature where necessary.

2. The general rule regarding surrenders is that all grants, except those which are specifically exempted from the rule of lapse, expire at the close of the financial year *i.e.*, 31st March, and no portion unexpended during the year may be reserved or appropriated by transfer to deposits or any other head, or drawn out and kept in the cash chest to obviate the lapsing of the grant and for expenditure after the end of the year for which the grant was made. Nor should there be undue rush of expenditure towards the close of the year. The grants which are not likely to be utilised before the expiry of the year should be formally surrendered and placed at the disposal of Government well in time so that the amount may be made use of elsewhere. It is not permissible to reserve such funds to meet possible new demands which may arise in the course of the year. FRIST OF MARCH of each year will be the latest date on which all surrenders of savings in the Budget grants should be reported to Government.

3. Heads of Departments are requested to pay personal attention to the matter and adhere to the above date, *viz.*, FIRST MARCH and report all surrenders to Government *in the Finance Department* furnishing full particulars regarding the heads (Major, Minor, detailed, etc.) in respect of which the surrenders are reported. No notice will be taken of surrenders reported after the due date and and Heads of Departments will be held responsible for non-surrender of grants in time. It will be the responsibility of the Departments to see that surrenders are made after a careful review of the progress of expenditure and providing for anticipated expenditure for the remaining part of the year and care should be taken to avoid excess surrenders.

Secretary to Government,

OFFICIAL MEMORANDUM.

Sub.—Surrender of Savings in the Budget grants of each year.

No. Fl (B). 5328-428—Bud. 15-54-1. It has come to the notice of Government that surrender of savings in Budget grants in each year is not reported well in time for taking necessary action in utilising savings for additional demands elsewhere with the concurrence of the Legislature where necessary.

2. The general rule regarding surrenders is that all grants, except those which are specifically exempted from the rule of lapse, expire at the close of the financial year *i.e.*, 31st March, and no portion unexpended during the year may be reserved or appropriated by transfer to deposits or any other head, or drawn out and kept in the cash chest to obviate the lapsing of the grant and for expenditure after the end of the year for which the grant was made. Nor should there be undue rush of expenditure towards the close of the year. The grants which are not likely to be utilised before the expiry of the year should be formally surrendered and placed at the disposal of Government well in time so that the amount may be made use of elsewhere. It is not permissible to reserve such funds to meet possible new demands which may arise in the course of the year.

FIRST OF MARCH of each year will be the latest date on which all surrenders of savings in the Budget grants should be reported to Government.

3. Heads of Departments are requested to pay personal attention to the matter and adhere to the above date, *viz.*, FIRST MARCH and report all surrenders to Government *in the Finance Department* furnishing full particulars regarding the heads (Major, Minor, detailed, etc.) in respect of which the surrenders are reported. No notice will be taken of surrenders reported after the due date and and Heads of Departments will be held responsible for non-surrender of grants in time. It will be the responsibility of the Departments to see that surrenders are made after a careful review of the progress of expenditure and providing for anticipated expenditure for the remaining part of the year and care should be taken to avoid excess surrenders.

FINANCIAL SECRETARIAT

Notification dated 19th July 1954.

OFFICIAL MEMORANDUM.

Sub.—Surrender of Savings in the Budget grants of each year.

No. Fl (B). 5328-428—Bud. 15-54-1. It has come to the notice of Government that surrender of savings in Budget grants in each year is not reported well in time for taking necessary action in utilising savings for additional demands elsewhere with the concurrence of the Legislature where necessary.

2. The general rule regarding surrenders is that all grants, except those which are specifically exempted from the rule of lapse, expire at the close of the financial year *i.e.*, 31st March, and no portion unexpended during the year may be reserved or appropriated by transfer to deposits or any other head, or drawn out and kept in the cash chest to obviate the lapsing of the grant and for expenditure after the end of the year for which the grant was made. Nor should there be undue rush of expenditure towards the close of the year. The grants which are not likely to be utilised before the expiry of the year should be formally surrendered and placed at the disposal of Government well in time so that the amount may be made use of elsewhere. It is not permissible to reserve such funds to meet possible new demands which may arise in the course of the year. FIRST OF MARCH of each year will be the latest date on which all surrenders of savings in the Budget grants should be reported to Government.

3. Heads of Departments are requested to pay personal attention to the matter and adhere to the above date, *viz.*, FIRST MARCH and report all surrenders to Government *in the Finance Department* furnishing full particulars regarding the heads (Major, Minor, detailed, etc.) in respect of which the surrenders are reported. No notice will be taken of surrenders reported after the due date and and Heads of Departments will be held responsible for non-surrender of grants in time. It will be the responsibility of the Departments to see that surrenders are made after a careful review of the progress of expenditure and providing for anticipated expenditure for the remaining part of the year and care should be taken to avoid excess surrenders.

The scholarships shall be granted to deserving cases of children and dependants of soldiers who are studying in Schools and Colleges. The eligibility of Scholarships is dependant on the following conditions :—

2. Persons eligible for concessions—Children, wives and direct dependant-brothers and sisters of the following personnel are eligible for the concessions :—

(i) Persons of Mysorean domicile or birth who served in the defence Services during the war of 1939-46 in the ranks including Non-combatants but excluding Commissioned Officers of the Mysore State Forces, who served under the Crown during the recent war.

(ii) I. N. A. Personnel who went over from the Indian Armed Forces to the I. N. A.

(iii) Indian Pioneer Force Personnel enrolled under the Indian Army Act.

NOTE.—(1) "Children" include adopted children where the personnel law recognizes the validity of the adoption. In the case of adopted children, legal documentary evidence should be produced. The adoption deed should have been executed at the time of adoption and not at the time of applying for the concessions. The adoption of daughters will not be valid except in rare cases and where concessions are proposed on behalf of an adopted daughter, the matter shall be decided by the head of the institution concerned.

(2) "Brothers" and "Sisters" also include step-brothers and step-sisters and half-brothers and half-sisters.

(3) To establish "dependence" on a member of the Defence services personnel referred to above, the father of the student concerned or other head of the family concerned should prove that the soldier was remitting money by money order or by family allotment.

3. Nature of Scholarships.—(1) A limited number of scholarships will be granted for students studying in Middle Schools, High Schools and Colleges (arts and professional) for a period of 8 months every year, commencing from 1st July. This condition as to approved military service will apply also to members of the Indian Navy and the Indian Air Force. More recruitment to these two services does not confer on their children or other dependants eligibility for concessions.

(ii) The soldiers concerned should have rendered at least six months' approved military service with liability to serve overseas in a theatre of war between 3rd September 1939 and 31st August 1946.

(iii) Children and dependants of soldiers whose present emoluments exceed Rs. 200 per mensem are not eligible for the concessions.

(iv) Children and dependants of soldiers or officers who have been killed or permanently incapacitated will not be denied the concessions by reason of the emoluments exceeding Rs. 200 per mensem if their financial circumstances make the grant necessary.

5. (i) Applications from persons studying in Middle Schools and High Schools should be forwarded through the institution in which the pupils are studying in the Form prescribed under Annexure A to these Rules, not later than 1st October of every year to the Director of Public Instruction who will scrutinise them and make recommendations to the Mysore Soldiers' Board once a year before 1st October of each year.

The head of the institution with the approval of the Director of Public Instruction or the Vice-Chancellor as the case may be, may continue the concessions for another year in the same class, where failure to secure promotion is due to extraordinary reasons like illness, change of residence, want of term days due to illness, etc.

8. Scholarships will not be granted or continued where the soldier or officer was discharged from military service by order of court martial or for misconduct or inefficiency or has been declared a deserter and has not been apprehended.

9. Scholarships should also be cancelled for misconduct on the part of the scholarship holder.

Subject :—Orders conveying financial Sanctions.

No. Fl (B) 7021-8020. The following instructions in regard to the issue of orders conveying financial sanctions are laid down, for the information and guidance of Drawing and Countersigning Officers :

The Accountant General has suggested that all letters or orders conveying sanctions to expenditure, appointments, etc., must be signed by an authorised Gazetted Government servant and that all such financial sanctions should be prepared and communicated to audit under the signatures of the officers concerned *in ink* and never over cyclostyled signatures.

There are two types of risks involved in the acceptance of sanctions over cyclostyled signatures. One, which is the more serious, is the danger of cyclostyled signatures being taken from previous stencils and by introducing them to fabricate spurious sanctions. The other is the possibility of acting on more than one copy of the genuine sanctions communicated over cyclostyled signatures.

It is, therefore, directed that all financial sanctions should invariably be prepared under the signatures of the officers concerned *in ink* and not over cyclostyled signatures.

Secretary to Government,

These differences give rise to comments in the Audit and Appropriation Accounts by the Accountant General, Mysore, Bangalore.

2. It is once again impressed on all the Heads of Departments and Controlling Officers that they should watch the progress of expenditure and effect reconciliation every month as required in Government Order referred to above.

3. It is also necessary that the Heads of Departments and Controlling Officers obtain from their subordinate officers a Monthly Progress Liability statement giving the position of outstanding liabilities up to the month to which the statement relates in order to help the controlling authority in exercising effective control over surrenders of grants, reappropriation of funds and also for the preparation of correct Budget Estimates of the following year.

Circular dated 24th August 1954.

Subject:—Orders conveying financial Sanctions.

No. Fl (B) 7021-8020. The following instructions in regard to the issue of orders conveying financial sanctions are laid down, for the information and guidance of Drawing and Countersigning Officers:

The Accountant General has suggested that all letters or orders conveying sanctions to expenditure, appointments, etc., must be signed by an authorised Gazetted Government servant and that all such financial sanctions should be prepared and communicated to audit under the signatures of the officers concerned *in ink* and never over cyclostyled signatures.

There are two types of risks involved in the acceptance of sanctions over cyclostyled signatures. One, which is the more serious, is the danger of cyclostyled signatures being taken from previous stencils and by introducing them to fabricate spurious sanctions. The other is the possibility of acting on more than one copy of the genuine sanctions communicated over cyclostyled signatures.

It is, therefore, directed that all financial sanctions should invariably be prepared under the signatures of the officers concerned *in ink* and not over cyclostyled signatures.

FINANCE DEPARTMENT

Dated 15th September 1954.

No. Fl. (B) 95-73—C.R. 1-54-39. In exercise of the powers conferred by proviso to Article 309 read with Article 313 of the Constitution of India, the Rajpramukh of Mysore is pleased to make the following rule, namely,—

Notwithstanding anything contained in Article 465 of Mysore Services Regulations the return journey performed by the Secretary, Mysore Legislature in October 1953 from Delhi to Bombay *via* Kalyan after attending the Conference of Presiding Officers of Legislative Bodies in India at Gwalior, is deemed to be an authorised one for purposes of calculating the Travelling Allowance.

By Order and in the name of the Rajpramukh,

4985

Official Memorandum dated 16th September 1954.

No. Fl. (B) 9614-713—C.R. 15-54-1. At present Service Registers and leave account of Non-gazetted Government Servants are being checked by the outside Audit Staff of the Accountant General's (Mysore) Office at the time of local audit and inspection of leave accounts maintained in Government offices according to a programme. But in view of the fact that only selected offices are included in the annual programme of local audit, it is not possible to scrutinise during local audit the service registers of all Non-gazetted Government Servants every year. The Accountant General, Mysore, considers it essential that the local audit staff sees that the Service Registers of all officials who were due to retire within a short time have been maintained properly as per rules, and that they check the leave accounts of all such officials before their retirement to ensure that there are no cases of irregular sanctions which result in excess payments. He has, therefore, proposed to arrange every year for the check of Service Registers and leave account of all non-gazetted Government servants, both superior and inferior, in the State who are likely to retire within the next three years or who will have putin 30 years of qualifying service by the end of this period.

In this connection, the Accountant General, Mysore, has brought for the consideration of Government a convenient arrangement which is adopted in Madras to facilitate the

check of Service Registers and leave account by the Audit parties. The Audit party is sent to the District office in each district and the Treasury Officer of the District collects and makes available for check in his office the Service Registers and leave account of the non-gazetted subordinates of all offices in the District. For this purpose, intimation of audit is sent in advance to the District Treasury Officer who in turn issues instructions to the heads of offices in the district to send all the Service Registers and leave accounts required by the audit staff to the District Treasury through the officials dealing with these documents and work.

The above proposals of the Accountant-General were referred to the Revenue Commissioner in Mysore who while agrees in the proposals has suggested that instead of the Treasury Officers the Personal Assistants to the Deputy Commissioners may be made responsible to collect and make available for check the Service Registers and leave accounts for audit.

After an examination of the question, it is directed that the arrangement suggested by the Accountant-General, Mysore and as modified by the Revenue Commissioner in Mysore, be adopted in the State. Heads of all Departments and Deputy Commissioners of Districts are requested to arrange for making available the Service Registers and leave accounts of the several offices in the District required for check by the Outside Audit Staff whenever intimation of such audit is issued and to depute the official in-charge of Service Registers and leave accounts during the period for which the Audit is conducted.

This booklet is published from East Pakistan by Abdus Salam on behalf of the Crescent Club from 37-Bishnucharan Dass Street, Dacca and printed by G. A. Chowdhury, B.A., at Paramount Press, Ltd., Dacca.

Advocating strongly in support of the Military Pact, the author says the primary motive which prompted the Government of Pakistan in asking, on February 22, 1954 for aid from U.S.A., which was readily agreed to on 25, February 1954, was to strengthen itself against possible aggressive designs of any neighbour nation and by creating a strong Muslim Bloc in the world, she endeavours to make her individuality felt among nations. He insists that despite the animosity of the Indian Parliament towards Pakistan the Pact has got to be signed since it is meant to do good only to Pakistan. The Pact does not mean the revision of the process of colonialism in Asia as expressed by Mr. Nehru but on the other hand it represents the wishes of the people of Pakistan to get stronger militarily and be not cowed down by the threats of the Indian Parliament where such irresponsible speeches like the one by Mr. Mahavir Tyagi, Minister for Defence Organisation that 'Pakistan got her freedom because of India's pains' are made. Colonialism in fact shows itself revived only in a new form from the manoeuverings of India which has over-run aggressively parts of Kashmir, Hyderabad, Manavdar and Junagadh where the Musalmans have consequently lost their freedom. When Pakistan is strengthening herself to put a check upon this new form of colonialism from ushering in 'Nehru feels completely out of gear, and the world finds him shrieking'. "We have partially lost Kashmir through weakness; we shall gain it through strength'. He traces the cause of the Second World War as consisting in the full-stream-war-preparations of Germany and the comparative weakness of her neighbours and feels that in order that history is kept from repeating itself that like Germany, India over-running her weak neighbours. Further he thinks that accepting of economic aid from U.S.A. also amounts to the same thing as that of accepting Military Aid. India is not in a possition to purchase armaments from foreign countries on her own resources and therefore had to accept economic aid which only indirectly helps in the race for re-armament.

Giving an instance of the crime of being a weak nation the author illustrates that when the Nizam took a stand to remain independent and the Indian Union launched a Police Action over Hyderabad Pakistan's strength was mocked at when she could not come to the support of Hyderabad's cause. The boast of economic independence is meaningless if one is not powerful militarily. Nepal, Bhutan and Sikkim have become the satellite countries of India and behind this policy of gradual expansionism is the Prime Minister of India Mr. Nehru who disguises this policy under the garb of a call for a 'Peace Area' in Asia and the Third Block or the Peace Block in International relations. Pakistan's Independence is equally threatened if she remains for long a weak nation. Giving an instance of the psychology of the Hindu mind the author quotes a sentence spoken by Maulana Azad in the Indian Parliament that the 'Hindu Mind is an example of narrowness' which has to a great extent been responsible for the partition of the sub-continent.

Lastly writing on the Kashmir issue, the author has to say that its solution has been made easier as negotiations are smoother between equal powers. He threatens upon the growing strength of Pakistan, that if India continues to hold on indefinitely in Kashmir, we cannot sit idle anymore however unpleasant the consequences might be. If Nehru by his intransigence, forces us to hazard a war in Kashmir, that will be a war of liberation of our own territory a war of self-defence and not of aggression against any. American arms received under the aid can definitely be utilised for our protection. Here is a concrete gain for us".

The balance of power in Asia—idea propounded by Nehru means nothing more than a weak Pakistan and a strong India and this balance Pakistan is now ready to smash. 'Should we remain weak just to suit the wishes of some country'? he asks.

This booklet directly accuses the foreign policy of India as characterised by expansionism over weaker nations of the neighbourhood and contains a threat to India that Pakistan would not sit idle if India continued to hold on Kashmir indefinitely and that she would be using the American arms received under the Military aid.

No. Fl. B. 10530-630—CR. 23-54-1. According to the provisions of Article 196 of the Mysore Financial Code, Volume I, read with Article 219 (3) *ibid*, bills for Supplies and Services (or invoices of a firm or private party) not paid out of Permanent Advance may be passed for payment in favour of parties other than the Drawing Officers, *i.e.*, in favour of the suppliers. It is also provided that such bills should be countersigned by the Departmental Officer after recording thereon the required certificates.

2 A firm or a private party does not use any prescribed or authorised form of invoice or bills for supplies made to Government departments, and consequently there is no uniformity in the form of the bills for supplies presented at the Treasury. In many cases the required certificates are either not recorded or recorded in an incomplete manner. To obviate the defects enumerated above the following revised procedure shall be followed in future.

3 Authorised Contingent Bill forms may be used for the drawal of the claims for supplies and services made by firms and private parties also. In such cases the bill or invoice of the supplier should be attached to the Contingent Bill as a sub-voucher. The endorsement for payment to the suppliers should be made on the contingent bill. The suppliers, after receipting the contents may, if they desire payment to a Bank, endorse the bill in favour of the Bank for collection only.

4 Drawing Officers shall also issue advices simultaneously to the Treasury and the Bank concerned giving full particulars of the bill whenever a Contingent Bill is endorsed to a private party.

No. Fl. (B) 10630-730—C.R. 22-54-1. The Accountant-General, Mysore, has brought to notice a case of double payment of pay and allowances in respect of an officer due to non-verification of details of the Acquittance roll of the concerned month by the Drawing Officer and furnishing a non-payment certificate on the supplemental bill as a matter of course without satisfying himself regarding the correctness of the claim. Such double claims of pay on behalf of superior staff are understood to have come to notice frequently in Central Audit. The Accountant General has also reported that most of the Drawing Officers are not noting the fact of drawal of supplemental bills in the original Acquittance Rolls.

With a view to avoiding irregularities of the above kind, it is hereby directed that all supplemental claims be verified thoroughly by the Drawing Officers. Such claims should invariably be noted in the original Acquittance Rolls filled in their offices and a certificate in the following form recorded by them in all Supplemental pay bills:

"Certified that the supplemental claims preferred above have been verified with reference to the Acquittance Rolls for the concerned months filed in this office/the concerned offices and also that they have been noted against the entries shown therein as withheld or omitted."

Supplemental pay bills without the above certificate recorded therein by the Drawing Officers will not be paid at the Treasuries when presented for payment. This certificate has to be furnished in addition to the non-payment certificate prescribed in Article 172, Mysore Financial Code, Vol. I.

(HOME DEPARTMENT).

Notice dated 18th October 1954.

Notice under sub-section (3) of Section 9 of the Manoeuvres, Field Firing and Artillery Practice Act, 1938, (Central Act V of 1938).

No. H.B. 5271-4—Mily. Under sub-section (3) of Section 9 of the Manoeuvres, Field Firing and Artillery Practice Act, 1938 (Central Act V of 1938), read with Rule 4 of the Mysore Manoeuvres, Field Firing and Artillery Practice Rules, 1951, the Government of Mysore, hereby give notice of their intention to issue on or after the expiry of two months from the date of its first publication of this notice in the *Mysore Gazette*, a Notification under sub-section (2) of the said Section authorising the carrying out of Field Firing and Artillery Practices over the whole or part of the area specified in the first column of the schedule hereto annexed during the period specified in the second column thereof:

After the notification referred to in paragraph 1 above has been issued such persons as are included in the forces engaged in field firing or artillery practice will be at liberty, within the area defined in a notification issued under sub-section (1) of Section 9 of the Manoeuvres, Field Firing and Artillery Practice Act, 1938, or any specified part thereof during the period or periods specified in the notification referred to in paragraph 1—

(*a*) to carry out field firing and artillery practice with lethal missiles;

(*b*) to pass over, or encamp, construct military works of a temporary character, or execute military manoeuvres on, the area specified; and

(*c*) supply themselves with water from any source of water in such area:

Provided that the water taken is not in excess of the reasonable requirements of the military forces or does not curtail the supply ordinarily required by those entitled to the use of such water supply. The Officer Commanding the forces engaged in any such practice may, within notified area or specified part thereof declare any area to be a danger zone and thereupon the Deputy Commissioner will, on application made to him by the Officer Commanding the forces, engaged in the practice, prohibit the entry into and secure the removal from such danger zone, of all persons and domestic animals during the times when the discharge of lethal missiles is taking place or there is danger to life or health.

The liberties mentioned in paragraph 2 do not authorise entry on or interference with any well or tank held sacred by any religious community or any place of worship or ground attached thereto except for the legitimate purpose of offering prayers or any place or building reserved or used for the disposal of the dead, or any dwelling house or premises attached thereto or any educational institution, factory, workshop or store or any premises used for the carrying on of any trade, business or manufacture or any ancient monument as defined in law relating to Ancient Monuments for the time being in force. This, however, does not debar entry into, or interference with any such place if it is situated in an area declared to be a danger zone, to the extent that may be necessary to ensure the exclusion from it of persons and domestic animals. In the case of a dwelling house occupied by women adequate warning will be given through a local inhabitant and entry will be effected after such warning in the presence of two respectable inhabitants of the locality.

Compensation is payable from the Defence Estimates for any damage to persons or property or interference with rights or privileges arising from such field firing and artillery practice including expenses reasonably incurred in protecting person, property, rights and privileges. Compensation so payable will include compensation for exclusion or removal from any place declared to be a danger zone of persons or domestic animals, such compensation to be disbursed at not less than the minimum rates prescribed in Rule 19 of the Mysore Manoeuvres, Field Firing and Artillery Practice Rules, 1951, before the exclusion or removal is enforced and will also include compensation for any loss of employment or deterioration of crops resulting from any such exclusion or removal. The Deputy Commissioner of the district will depute one or more Revenue Officers to accompany the forces engaged in field firing and artillery practice for the purpose of determining the amount of compensation, if any, payable. The Revenue Officer will consider all claims for compensation and determine, on local investigation and where possible after hearing the claimant, the amount of compensation, if any, to be awarded in each case; and will disburse on the spot to the claimant the compensation so determined as payable. Any claimant who is dissatisfied with a refusal of the Revenue Officer to award his compensation or with the amount of compensation awarded to him by the Revenue Officer, may, at any time within fifteen days from the communication to him of the decision of the Revenue Officer give notice to that officer of his intention to appeal against the decision. Where any such notice has been given, the Deputy Commissioner of the district will constitute a commission consisting of himself as Chairman, a person nominated by the Officer Commanding the forces engaged in field firing and artillery practice and two persons nominated by the District Board, and the commission will decide all appeals of which notice has been given. The commission is competent to exercise its powers notwithstanding the absence of any member of the commission, and the Chairman of the commission will have a casting vote in the case of an equal division of opinion. The decision of the commission will be final and no suit will lie in any Civil Court in respect of any matter decided by the commission. No fee will be charged in connection with any claim, notice, appeal, application or document filed before the Revenue Officer, Deputy Commissioner or the Commission.

If, during any period specified in the notification referred in paragraph 1, any person within the notified area wilfully obstructs or interferes with the carrying out of field firing or artillery practice, or without due authority enters or remains in any camp or enters or remains in any area declared to be a danger zone at a time when entry thereto is prohibited, or interferes with any flag or mark or target or any apparatus used for the purposes of the practice he will be punishable with fine which may extend to ten rupees.
